

EDUR Multiphase Pumps

Information Form

1. Process Description (e.g. DAF, DAFF)
2. Pump specs
3. Recycle capacity (m³/h)
4. Pressure (bar)
5. Air/gas contents (%)
6. What gas
7. Temperature (°C)
8. pH-value
9. Substances in liquid (such as chloride contents %, or others)
.....
10. Motor specs
11. Frequency (Hz)
12. Operating voltage (V)
13. EEX protection (if required)

Additionally, any information about the process for which the flotation system is used will be very helpful, e.g. municipal wastewater treatment, water/oil separation, wastewater from dairy, abattoir, aquaculture, etc.
